

VACUUM EXCAVATORS BUILT TO HELP YOU DO YOUR JOB BETTER, FASTER AND EASIER.

DIG STRONG.

DIG FAST.

DIG RIGHT.

DIG SMART.

 **TRUVAC[®]**

Introducing **TRUVAC**[®]—a brand dedicated to advanced, safe-digging technology. To better performance. To superior productivity. That's why TRUVAC was founded, and what TRUVAC delivers in every truck.

MEET THE TRUVAC VACUUM EXCAVATOR LINE:

PARADIGM

The Paradigm[®] is the most innovative and versatile sub-compact vacuum excavator on the market. Excavate around utilities with the utmost degree of certainty, safety and efficiency. Tough, powerful and ultra-productive.

PRODIGY

We've paired incredible versatility within a compact yet powerful package. Prodigy[®] is the perfect safe-digging machine for a wide range of demanding applications. With lower operating costs than larger machines, but delivering overwhelming productivity.

COYOTE

The perfect safe-digging machine for those looking for a classic style hydrovac for demanding applications. The TRUVAC Coyote delivers incredible performance in a small package with maximized legal payloads. All backed by the TRUVAC commitment to quality.

HXX

This series of full-sized beasts was developed from the ground up—literally. The HXX[®] is the result of years of research, testing and customer input. With the HXX, no job is too big or too tough for you to tackle.

WOLF

Designed and built in Edmonton, Canada, with some of the coldest winters on the planet, this hydrovac knows tough. The TRUVAC Wolf is operated in some of the most extreme conditions which are no match for its classic style control system. All backed by the TRUVAC commitment to quality.

VACUUM EXCAVATORS THAT HELP YOU DIG SMART.

It's not just the innovative technology that makes choosing a TRUVAC vacuum excavator a smart decision.

IT'S THE

SPEED.

IT'S THE

PRECISION.

IT'S THE

POWER.

TRUVAC vacuum excavators are the most dependable and most advanced vacuum excavators in the industry. Which means digging with TRUVAC is digging smart.

PERFORMANCE. PRECISION. PRODUCTIVITY.

No-one outperforms TRUVAC, purpose-built to meet the most demanding excavation needs. Designed to dig more precisely. More productively. To be as reliable and as durable as the men and women who use them.

PERFORMANCE

Demand the best. We do. Every TRUVAC vacuum excavator is put to the test—because we know you'll do the same, when it counts. Our machines offer safer potholing, precise excavation, slot trenching, line locating and much more.

PRECISION

More than 19 million miles of utilities are buried in the United States alone. That's 19 million miles of potential risk. TRUVAC vacuum excavators are built to quickly, efficiently and precisely verify the location of those underground utilities. Tight spaces? Not a problem. Difficult location? Not for us. Equipped with precision safety features like DigRight® water pressure control, no one handles challenges better.

PRODUCTIVITY

You can't design machines for the job without talking to the people who do the job. We spoke with over 100 utility companies, visited contractor job sites, and tapped into every bit of our more than a century of experience. The result? Vacuum excavators that are faster, smarter, more dependable, and with better support to improve uptime so the job is done right, every time.

SUPERIOR TECHNOLOGY

- Innovative and patented features make operation easier, faster and more efficient including:
 - **DigRight**® patented technology that allows the operator to select the maximum water pressure output with the push of a button, saving fuel and money, reducing wear and tear on equipment and improving safety
 - **Park-n-Dig**™ technology lets the operator flip a switch to begin operation, greatly reducing set-up and tear-down time
- Simple, intuitive controls with built in diagnostic capabilities and wireless remote with display

PURPOSE-BUILT ENGINEERING

- Unequaled precision minimizes the risk of buried infrastructure damage and reduces the disruption of traffic or public areas
- Numerous safety advantages such as E-Stop technology, inspection access ports, engineered tie off points and trigger systems
- Customize your unit by size, chassis configuration, vacuum system, and choose from many useful options and accessories

UNRIVALED QUALITY

- Backed by over 100 years of engineering excellence
- Designed to be consistent with safe-digging requirements
- Produced using processes certified to ISO 9001 and ISO 14001 (by Vactor® Mfg., Inc.)
- OHS Certificate of Recognition (COR) (by Westech)
- ASME Boiler and Pressure Vessel Manufacturer (by Westech)
- ABSA Pressure Vessel Manufacturer (by Westech)

WHEN IT COMES TO QUALITY ENGINEERING, INNOVATION AND RELIABLE SERVICE, NO OTHER VACUUM EXCAVATORS CAN MATCH TRUVAC.
