The Solutions You Trust Since 1963

CELEBRATING OVER 55 YEARS IN BUSINESS

*Lead distributor of
municipal, truck body, and
environmental equipment.*

- *Street & Road Maintenance*
- *Storm & Sewer Water Maintenance*
- *Underground Utility*
- *Snow Removal*
- *Refuse & Recycling*
- *Airport Maintenance*
- *A&H Bodies*

COMPANY OVERVIEW

A&H was founded in 1963, and is the region's leading distributor of municipal, truck body, and environmental equipment solutions and products. Headquartered in Pittsburgh, Pennsylvania and with two additional locations in Somerset and Harrisburg, A&H combines top-quality products and parts with expert, reliable support services to meet the needs of our customers throughout Pennsylvania and West Virginia. A&H Equipment is raising the standard in customer care and is considered the most dependable and most reliable equipment distributor. A&H redefines what it means to supply the best solution for the road ahead. A&H is ranked in the top 5% of dealers in the United States by Satisfyd.com for its customer satisfaction.

SERVICE DEPARTMENT

At A&H we have a full service staff available at all three locations to continue the high quality standards of meeting customer needs. From parts and repairs to operator training, our service staff will make sure the equipment not only works but stays operating. All of our technicians are factory-certified trained and aid in territory road calls to fix equipment if necessary.

PARTS DEPARTMENT

A&H Equipment is known for our capabilities to source specialty parts with our computerized parts inventory management system. Overnight shipping on OEM (Original Equipment Manufacturer) parts is always available. The A&H Parts Department has a knowledgeable staff with over 50 years' experience that can help get what you need fast to get you back on the road.

RENTAL DEPARTMENT

Long-term and short-term rentals are not a problem for your industry's needs. A&H has rental options that are tailored to meet your expectations, and we work closely with your organization to develop solutions that are not only dependable, but durable when it comes to rental equipment. Our rental fleet includes Elgin Crosswind regenerative air sweepers, Elgin Whirlwind pure air vacuum sweepers, Elgin Broom Bear mechanical sweepers, Elgin (non-CDL) Broom Badgers, Vactor & Truvac utility product lines.

VACTOR

Combination Sewer Cleaners

2100i PD

- Exclusive Vactor Jet Rodder® water pump with jack hammer action.
- The powerful vacuum source can be either a centrifugal compressor (fan) or positive displacement blower (PD) depending on application.
- With the Modul-Flex design, numerous-sized debris tanks from 3 to 15 cubic yards (2.3 - 11.5 cu m), and water capacities from 500 to 1,500 gallons (1,893 - 5,678 liters) are available.

VACTOR

Combination Sewer Cleaners

2100i FAN

- The Vactor Single Stage Fan System is for all around service, choose a single engine, single fan model Vactor's fan system is the right choice for all-around sanitary and storm sewer cleaning.
- Whether equipped with a single fan system, our lightweight, perfectly balanced aluminum fan provides superior performance to handle your toughest jobs.
- Standard 60 inch (1524 mm) high dump enables you to unload debris into roll-offs up to 5-feet (1.524 m) high without requiring a lift or ramp.

VACTOR

Combination Sewer Cleaners

2103

The Vactor 2103 is ideal for municipalities requiring a sewer cleaning truck for fast response or as an emergency backup vehicle. Small communities use it as a lower-cost alternative to perform regular maintenance and repair storm water lines.

- Fully hydraulic boom and pickup hose
- Easy load, fast-dump debris body
- Powerful positive displacement vacuum
- Multi-stage blower filtration system
- Exclusive JetRodder® water pump
- Front-mounted hose reel

VACTOR

Combination Sewer Cleaners

2100 WATER RECYCLING

- ABSOLUTE water filtration to 100 micron particle sizes - ELIMINATES most abrasive particles to protect the water pump, hoses, nozzles, and the sewer lines
- 5-Stage filtration system - system uniquely combines settling, centrifugal separation, and absolute filtration to 100 micron**
- Simultaneous operation - Recycles water while cleaning lines
- Stainless Steel construction - All valves, filters, screens, and piping on the recycling system are stainless steel
- Self-Cleaning - The absolute classification filter is cleaned automatically

STORM & SEWER

VECTOR

Catch Basin Sewer Cleaners

2100 PLUS CB

- When a dedicated catch basin cleaner is needed, the Vactor 2100 Series CB (catch basin cleaner) is equipped with a highly maneuverable boom and powerful vacuum source to move from basin to basin, cleaning out rocks, dirt, leaves, litter and other debris that can clog the storm sewers and prevent them from working properly during rain events.

VECTOR

Sewer Water Jetters

RAMJET TRUCK & MOUNTED JETTER

- The rear hose reel can rotate a total of 180 degrees, 90 degrees to curb side and 90 degrees to street side providing direct alignment to manholes and the shroud protects the system from the elements making cleaning in cold weather possible.
- Park-N-Clean is a system that allows the operator to park near the manhole and begin cleaning with a minute or two - requiring minimal set up time.

Sewer Water Jetters

TRAILOR & SKID MOUNT

- The 4018 is the only unit with a true run-dry plunger pump. This unit can work in pipes ranging from 1" - 24" and can be fitted with tanks sized 100 - 750 gallons or larger if required. The standard unit comes equipped with 500' of 1/2" hose.
- The 4025 [4000 PSI 25 GPM] is US Jetting's most versatile jetting machine. With 4000PSI pressure it maintains the cutting power of a 4018, but magnifies the flushing power with the added gallons per minute. This gives it endless applications from grease and root cutting, to culvert cleaning and storm drain jetting. The 4025 unit can work in pipes ranging from 1" - 48" and come standard equipped with 500' of 5/8" hose.
- The 3040 [3000 PSI 40 GPM] is an industrial strength machine designed to clean large sewers or storm drains. Powered by a 99 HP Kubota diesel engine, the 3000 PSI 40 GPM unit is an ideal machine for municipalities and contractors. It is available with up to 750 gallons of water storage on a tandem axle trailer and up to 1000 gallons mounted on certain trucks. The unit comes standard with one hydraulic powered reel with 500' (150 M) of 3/4" hose. It is also available with a second reel that can be fitted with 500' of 1/2" hose.

Looking for a long-term or short-term rental?

“Over 14,000 units have been sold worldwide, far more than any other sewer cleaner. A Proven Leader. Work Assured with a Vector.”

Vector 2100i Combo Unit

STORM & SEWER

ENVIROSIGHT

Inspection Crawlers

ROVER X

- Steerable 6-wheel drive maneuvers past obstacles.
- Modular design adapts to pipe of any size, condition and material.
- Compact system footprint can be deployed from any size vehicle.
- Digital controls automatically update to the latest features and support self-diagnostics.
- Scalable design supports lateral launch, side-scanning and laser profiling.
- WinCan VX included with every system purchase.

ENVIROSIGHT

Inspection Crawlers

ROVER X SAT

- Crawl 500' down lines 6" and larger.
- Launch 100' into laterals 4" and larger.
- Avoid push rod damage with force-sensing rollers.
- Pan 360 degrees and tilt 90 with auto-leveling camera.
- Maneuver to troublesome launch points with steerable 6-wheel drive.
- Rear-view camera assists navigation; multi-frequency sonde facilitates location.

ENVIROSIGHT

Inspection Zoom Cameras

QUICKVIEW AIR HD

- Diagnosing emergency call-outs.
- Avoiding confined space entry.
- Conserving CCTV resources.
- Performing a rapid, system-wide assessment.
- Prioritizing CCTV, cleaning and rehab activities.
- Viewing pipes too deteriorated for a crawler.

ENVIROSIGHT

Push Cameras

VERISIGHT PRO PLUS

- Capture up to 90 hours of video and images.
- Offload inspections via USB drive or SD card.
- Organize stored footage using built-in library.
- Type and save text using full QWERTY keyboard.
- Add text overlay with custom data, live distance.
- Log observations to generate basic reports, or for upload to WinCan (both optional).

ENVIROSIGHT Inspection Video Nozzles

JETSCAN

- Two sizes handle pipes down to 6".
- Cable-free design means no secondary reel or dropped signals.
- Jetscan simply threads on to any jetter hose.
- Compact design addresses a broader range of applications.
- Captured footage is viewed immediately after on a tablet.

ENVIROSIGHT Manhole Inspection Scanners

CLEVERSCAN

- Initiate complete scan sequence with single button press.
- Perform fully automated scan in 2-3 minutes.
- Deploy practically anywhere with just one operator.
- Perform a full day's work on one battery charge.

ENVIROSIGHT Inspection Reporting

WINCAN VX SOFTWARE

- **Comply:** Gather standards-compliant data for analysis, reporting and export. WinCan supports more than 50 defect catalogs (including PACP/MACP and WRc).
- **Analyze:** Run queries on any combination of criteria to understand maintenance needs. Get results in reports, on a map, or as raw data.
- **Share:** Publish completed inspections securely to the cloud, where clients can view them instantly using a web browser.

- **Report:** Generate information-rich reports using filtered data, photos, and schematic illustrations.
- **Integrate:** Connects with any inspection equipment, and interfaces with all major municipal databases and GIS platforms.
- **Decide:** Extract the actionable intelligence you need to make critical maintenance decisions.
- **Budget:** Allocate resources based on infrastructure condition, make budgetary projections, anticipate maintenance, and manage inspection work flow.

ENVIROSIGHT Inspection Mobility

TRUCK BUILD OUTS & OUTPOST

Studio Amenities

- Bulkhead wall with smoked-glass window and pass-through door.
- Laminate desk with wall-mount monitors.
- Hinged storage bench with cushion.
- Lighted latching cabinetry and file drawer.
- Wall outlets, and wall switches for interior LED lighting.
- Wall-mount controls for arrow boards, strobes and power source.
- Ceiling air conditioning and heat (some models).
- Carpeted walls with rubber floor.

Work Bay

- Custom laminate cabinetry.
- Built-in heavy duty tool drawers.
- FRP walls and ceiling with rubber floor.

Outpost

- Welded aluminum construction has epoxy finish
- Swing-up hood shields operator
- Blinders and flat interior reduce glare
- Shelving holds video/crawler gear
- Drawer compartments hold 500lbs

STORM & SEWER

Repair Sleeve

QUICK-LOCK REPAIR SLEEVE

Positioned by a crawler and expanded pneumatically, Quick-Lock's rehab sleeve provides structural, trenchless pipe repair with heavy-gauge 316L stainless steel, plus infiltration abatement with an EPDM rubber gasket. Quick-Lock solves:

- Infiltration
- Longitudinal cracks
- Circumferential cracks
- Holes
- Separated joints
- Offset joints
- Abandoned laterals
- Root intrusion

Sewer Cleaning Nozzles

NOZZLES

StoneAge, Inc. is one of the world's leading manufacturers of high-pressure waterblast tools and automated equipment for industrial companies and contractors worldwide.

StoneAge Water Blasting Tools have been an industry standard for over 30 years and continue to lead the way with automated equipment designs that promote safety and advance productivity for a wide variety of applications

Sewer Cleaning Nozzles

NOZZLES

KEG offers a wide range of nozzles to satisfy the most difficult pipe cleaning conditions imaginable.

From our value priced Tier 1 nozzles to our patented ultra high efficiency Tier 3 nozzles, KEG nozzles get the job done fast.

We tune the high efficiency nozzle jets to match your equipment giving you the best possible cleaning, while saving you time, water consumption and fuel costs.

Safety/Hearing Protection

APX377 & APX379 (Bluetooth)

APX377

Powered by the latest DECT7 wireless technology, the APX377 connects you to team members in full-duplex conversation with advanced hearing protection. With no delays, no buttons to push and no clipping or interference, the multi-channel capability of these headsets lets multiple teams operate simultaneously in the same work area. Push-to-talk or monitor virtually any portable two-way radio via a direct-wire cable connection (wired portable radio adapter required, radio not included). The APX379 adds Bluetooth technology to the features included on the APX377.

Envirosight ROVVER X

ROVVER X is the one system that lets you do everything: control inspections, view and record digital video, log observations, generate reports, and link directly to asset-management software.

- Steerable 6-wheel drive maneuvers past obstacles.
- Modular design adapts to pipe of any size, condition and material.
- Compact system footprint can be deployed from any size vehicle.
- Digital controls automatically update to the latest features and support self-diagnostics.
- Scalable design supports lateral launch, side-scanning and laser profiling.
- WinCan VX included with every system purchase.

SAFE, EASY & ADVANCED SEWER INSPECTION CRAWLER

AGILE Maneuver Past Obstacles

- Proportional steering to maximize agility.
- Zero-degree turning for pivoting and traversing curved inverts.
- Overlapping 6-wheel drive for climbing over offsets and debris.
- Wheel tread and geometry optimized for superior traction and range.
- Lightweight Kevlar cable poses minimal drag.

SMART Inspect with Intelligence

- Auto-updating pendant always supports the latest features.
- Concurrent control of multiple crawler functions (steer while tilting the camera and raising the lift).
- 6-conductor cable is easier to pull and reterminate, but has a 1000-lb break strength.
- Support for lateral launch, laser profiling, and side-scanning applications.
- Easy online updates for pendant functionality.
- View status from dozens of onboard sensors, and access lifetime operating history.

VERSATILE Adapt to Every Challenge

- 12 quick-change wheel options.
- Many accessories: motorized camera lift, auxiliary lamps, large diameter carriage.
- Three crawler body sizes address applications from 4 to 96 inches diameter.
- Support for lateral launch, laser profiling, and side-scanning applications.
- Easy online updates for pendant functionality.
