COMPANY OVERVIEW

A&H was founded in 1963, and is the region's leading distributor of municipal, truck body, and environmental equipment solutions and products. Headquartered in Pittsburgh, Pennsylvania and with two additional locations in Somerset and Harrisburg, A&H combines top-quality products and parts with expert, reliable support services to meet the needs of our customers throughout Pennsylvania and West Virginia. A&H Equipment is raising the standard in customer care and is considered the most dependable and most reliable equipment distributor. A&H redefines what it means to supply the best solution for the road ahead. A&H is ranked in the top 5% of dealers in the United States by Satisfyd.com for its customer satisfaction.

SERVICE DEPARTMENT

At A&H we have a full service staff available at all three locations to continue the high quality standards of meeting customer needs. From parts and repairs to operator training, our service staff will make sure the equipment not only works but stays operating. All of our technicians are factory-certified trained and aid in territory road calls to fix equipment if necessary.

The 2018 "Behind the Scenes" Award was presented to A&H at the NASCAR Safety and Operations Summit in Concord, North Carolina for exemplary track services in 2018.

PARTS DEPARTMENT

A&H Equipment is known for our capabilities to source specialty parts with our computerized parts inventory management system. Overnight shipping on OEM (Original Equipment Manufacturer) parts is always available. The A&H Parts Department has a knowledgeable staff with over 50 years' experience that can help get what you need fast to get you back on the road.

RENTAL DEPARTMENT

Long-term and short-term rentals are not a problem for your industry's needs. A&H has rental options that are tailored to meet your expectations, and we work closely with your organization to develop solutions that are not only dependable, but durable when it comes to rental equipment. Our rental fleet includes Elgin Crosswind regenerative air sweepers, Elgin Whirlwind pure air vacuum sweepers, Elgin Broom Bear mechanical sweepers, Elgin (non-CDL) Broom Badgers, Vactor & TruVac utility product lines.

STREET & ROAD

LEADER IN THE INDUSTRY

Do you have specific roadway needs? Our award winning sales team can help customize purchase packages or rental packages with the option of planned maintenance to keep you worry free. As always we provide on-site demonstrations before developing the right solution for your job completion.

rentals@ahequipment.com | sales@ahequipment.com

Mechanical - Non-CDL

BROOM BADGER

- Non-CDL 19,500 lb GVWR chassis
- Left or Right side variable high dump hopper configurations
- Compact wheelbase while offering powerful sweeping performance
- Features a 4.0 yd³ hopper with a variable height dumping up to 10 ft

Mechanical

BROOM BEAR | HYBRID BROOM BEAR

- Single-engine technology
- Twin variable displacement hydraulic pumps for increased sweeper system efficiencies
- 4.5 yd³ (3.4 m³) hopper standard
- 11" (279 mm) hopper side shift for maximizing dump truck/container payload distribution
- Squeegee with patented interchangeability to chevron conveyor belt system
- Less Fuel | Lithium-ion Battery | Charge on-the-Go

Mechanical / Waterless / Industrial

EAGLE

- 74hp Cummins Tier 4 final auxiliary engine
- 4.5 yd³ (3.4 m³) hopper standard
- 11" (279 mm) hopper side shift for maximizing dump truck/container payload distribution
- Chevron conveyor belt system with patented interchangeability to squeegee system

Mechanical / Waterless / Industrial

PELICAN

- Market leader offering 360 degrees of operator visibility
- Rear steer for outstanding maneuverability
- Front mounted, variable high dump 3.6 yd³ (2.8 m³) hopper
- Elgin exclusive chevron conveyor belt
- *Hybrid Pelican Available Soon*

STREET & ROAD

Regenerative Air

CROSSWIND 1

- Single engine
- Superior dust suppression
- Tilt body for traditional dumping of sweepings
- Patented Shared Power technology; less diesel emissions complexity
- Dual-engine platform available

Vacuum

WHIRLWIND 1 / WHIRLWIND

- Customer tailored performance configurations
- Application flexibility
- Standard simultaneous sweep/dual nozzle sweep functionality
- Suction nozzle(s) designed for demanding road surfaces
- Patented Shared Power technology; less diesel emissions complexity

Regenerative Air

REGENX | REGENX1

- 8 yd³ hopper capacity
- -50° Dump Angle
- 56" roll-off container dump height
- Avoid double-handling from dumping on the ground
- Improve operational efficiency by placing roll-off containers along your route
- Highly efficient dust separator; change fan belt in less than 5 minutes!
- **Single-Engine Design Available**
- Non-CDL Option

Waterless/Industrial

EAGLE

- 74hp Cummins Tier 4 final auxiliary engine
- 4.5 yd³ (3.4 m³) hopper standard
- 11" (279 mm) hopper side shift for maximizing dump truck/container payload distribution
- Chevron conveyor belt system with patented interchangeability to squeegee system

STREET & ROAD

Litter Vacuums

MADVAC LR50

- Only fully robotic arm on the market, simple operation eliminating fatigue with 270-degree arm movement
- Intuitive arm control via 6-position joystick for effortless use
- High operator seating and cab offering protection from the elements
- Street legal lighting package
- Wander hose collects litter up to 15 feet way
- 48" (20cm) Wide vacuum head option

Compact Sweepers

MADVAC LS175

- 2 or 4 wheel drive to operate in all terrain areas;
- Hopper size 1.75 CY or 2.75 CY to optimize route and autonomy;
- Automatic climate control unit for operator comfort (option);
- Wander hose for hard to reach areas (option);
- Pressure washer 1500 PSI for additional cleaning (option);
- Add a boom for litter-picking cap
- 10-12 Year Lifespan

Litter Vacuums

MADVAC LR175

- Easy to operate and maintain.
- Superior handling, better stability, better curb-climbing capability.
- Short wheel base Turn on a Dime' on speed, and strength.
- Higher machine clearance
- Simple, reliable mechanical design for less annual maintenance and repair
- Low overall height of 78" (1981 mm) ideal for tree-lined roads and underground parking garages.
- Narrow 48" (1219 mm) width to sweep hard to reach areas.
- Robotic arm (6 positions in cab joy-stick) controlled by proportional hydraulic valves

Litter Vacuums

MADVAC LN50

- Simple, low cost operation and maintenance
- High operator seating for safety and visibility
- Assisted hydraulic arm controlled via joystick (up/down)
- Wander hose collects litter up to 15 feet away
- 48" Wide vacuum head option

TARCO

Leaf Loaders

THE WINDY SERIES

TARCO® Windy Series vacuum leaf loaders, manufactured by Fort Miller FAB3, are trailer mounted vacuums designed to efficiently collect leaves, litter, grass and other road side debris from parks, parking lots, curbs, sidewalks and stadiums.

TARCO

Leaf Loaders

THE HURRICANE SERIES

The TARCO® Hurricane Series vacuum leaf loaders, manufactured by Fort Miller FAB3, combines the vacuum assembly, hopper and trailer for efficient collecting of leaves, litter, grass and other road side debris. This high capacity vacuum is used for parks, parking lots, curbs, sidewalks and stadiums.

TARCO

Leaf Loaders

THE TYPHOON SERIES

The TARCO® Typhoon Series vacuum leaf loader, manufactured by Fort Miller FAB3, is a one man operation, truck mounted vacuum for the efficient and cleaner collection of leaves, litter, grass and other roadside debris. Operations are joystick controlled within the cab for a greater degree of safety and higher level of productivity. Our dust reduction feature reduces airborne dust, creating a safer and cleaner environment for operators and surrounding neighborhoods.

Sonetics

Safety/Hearing Protection

APX377 & APX379 (Bluetooth)

APX377

Powered by the latest DECT7 wireless technology, the APX377 connects you to team members in full-duplex conversation with advanced hearing protection. With no delays, no buttons to push and no clipping or interference, the multi-channel capability of these headsets lets multiple teams operate simultaneously in the same work area. Push-to-talk or monitor virtually any portable two-way radio via a direct-wire cable connection (wired portable radio adapter required, radio not included). The APX379 adds Bluetooth technology to the features included on the APX377.

Broom Badger

Searching for a mechanical compact sweeper that is powerful and maneuverable to complete the most heavy-duty sweeping applications? Elgin Sweeper Company has a cost effective solution! The Broom Badger has a low-profile, compact design that allows for easy access to tight turning and winding streets. This unit does not require a CDL licensed operator, making it more ideal for contractors and municipalities. Features include; a high dump 4.0 yd³ hopper, variable height dump up to 10', compact wheelbase, and robust side brooms to optimize sweeping performance with a maximum 9' 6" sweep path.

Dual-Engine for easy operation and maintenance. NO CDL REQUIRED.

APPLICATION SOLUTIONS

Elgin Sweeper doesn't offer just one sweeping technology — we take an application-based approach to solving our customers' sweeping needs. Our team works with every customer to ensure they get a machine that fits their specifications, with the right truck, engine configuration, fuel requirements, and options.

POWERFUL SUPPORT

Elgin Sweepers are built for clean, backed for life. Throughout the life of the sweeper, we offer team training on proper use and maintenance. We have a worldwide network of experienced dealers with factory trained technicians and a local stock of OEM parts and accessories, to ensure total customer peace of mind.

UNMATCHED QUALITY

The Broom Badger has optimal performance and is easy to operate and maintain, making it ideal for contractors and municipalities. Elgin sweepers are manufactured in an ISO:9001 certified manufacturing plant. Products are painted prior to assembly and quality tested. The Broom Badger is proudly assembled in the U.S.A. using only the finest materials.
